Brookhaven spa gets environmental kudos

The new Natural Body Spa & Shop in Brookhaven is planning to celebrate today the designation of its facility as the only platinum LEED-certified spa in the country.

The designation is the highest given by the U.S. Green Building Council, and was awarded for the spa's energy-saving and water-sipping features and use of recycled materials such as wheatboard cabinets.

The spa is on Dresden Drive in the new Village Place Brookhaven development.
