

MA11 MOBILE TOUR

We invite you to explore the city with our inaugural Modern Atlanta Mobile Tour. MA has selected eight locations scattered throughout Midtown, East Atlanta and the Westside that help illustrate how contemporary design relates to urban geography and transforms the built environment in responsible ways. Although the Mobile Tour is separate from MA's Home Tour, it serves as a supplement by highlighting off-site landmarks that serve as everyday inspirations. To access the Mobile Tour with your smartphone, please scan the QR code for the location that interests you. (Scanning the QR code requires a special app for your smartphone, but there are several options available for free download.) Fun and informative, the Mobile Tour includes an info page and map devoted to each location.

Select from a range of available QR reader apps:

iPhone:

- QR Reader
- QR app
- QuickMark
- BeeTagg

Android:

- Zxing
- QuickMark QR Code Reader
